n. COLA: No.

3. Soldier qualifications:

- a. Experience required: Requires experience in instructional system development, curriculum planning, military education, training programs, and educational administration including tests and measurement. Prefer experience as a training administrator.
- b. Skills/qualifications required: Company or higher command experience desired, and competent with MS Suite computer software.
- c. Minimum military and civilian education required: Bachelor's Degree required.
- d. Security clearance required: SECRET

4. Project justification:

- a. The project to be completed are the duties and tasks associated with functioning as the Consequence Management Training Team Facilitator which involves the preparation, planning and conduct of CoM courses scheduled for FY 2002.
- b. There are no full-time personnel assigned (AGR or DA Civilian) to accomplish this project because the present manning authorizations for permanent full-time personnel at NICI are not yet established to perform the training mission of the CoM Team. There are no permanently funded positions on the team.
- c. The need for this project was created by the signed charter of the Chief, National Guard Bureau to provide tuition-free training for mid- and upper-level management professionals, civic leaders, public servants, members of the military, and international students on military support to civil authorities.
- d. The project is vital to the function of this office and the ARNG for the following reasons: NICI is tasked to provide strategic, management and operational training and research for military and civilian leaders to enhance the effectiveness of joint, Federal, State and local
